## Ministers Exchanges on Sunday

### A Police Court Special Justice Resigns

Exeter, Aug. 8.—There was quite a bit of exchanging about of the different pastors in the churches on Sunday. Rev. Harry Taylor occupying the pulpit at the Baptist church and Rev. Ina Partington of Hampton at the Methodist. At the First Congregational church there were no services, most of the attendants joining with the Phillips church. At the Baptist church Mr. Taylor will also occupy the pulpit on Aug. 14 and 21. Rev. Ansley E. Woodsum, pastor of the Baptist church, who is now away on his vacation, will supply the Baptist church at Portsmouth, in the absence of the pastor, Rev. William P. Stanley. Rev. George R. Driver, pastor of the First Congregational church, is away for the month on his vacation, which he will spend at the White Mountains.

Attorney Ernest G. Templeton has sent his resignation as special justice of the local police court to the governor and council.

The members of the Eagle Steamer company entertained a fire company from Haverhill, Mass., at Parkman's Grove Saturday afternoon. It was an annual outing for the firemen, and a pleasant and enjoyable occasion for the large representation present.

Rev. Wilbur A. Littlefield, entertained his Sunday school class at Great Bay on Saturday, the day being spent at one of the pleasantly situated spots on the shore there. A party of ten made the trip and the time was spent pleasantly by various diversions.

## HAMPTON BEACH

The Fairview house was the scene of a delightful musical on a recent evening, the occasion being arranged

by Mrs. James F. Garland of Manchester, and was participated in by numerous guests from Manchester, Concord, Portsmouth and Lawrence, Haverhill and Exeter. The program included both vocal and instrumental selections and there were other numbers given by the trio of musicians upon the clarinet, violin and cornet. On Wednesday of last week the choir of St. Mary's church in Lawrence, Mass., to the number of sixty-five guests, participated in their annual outing to this resort, headquarters for the day being made at the Javien hotel, where the day was passed in a most pleasant manner. A shore dinner was discussed at the noon hour, and late in the evening supper was partaken of. Mrs. D. A. Munsey serving a handsome collation. A season of social intercourse was enjoyed, and several selections in the party rendered some admirable numbers which were of a very high order. Chorus singing was also enjoyed, and the outing was most successfully conducted, the return to Lawrence being made in the late evening by special car.

Mrs. T. J. Dowd, Miss Lillie Dowd, Miss Jane F. Dowd and Miss Irene B. Dowd, all of Nashua, have arrived at the Ocean house, where they will spend the remainder of the season, as has been their custom for several years.

Miss Mary Sweeney and Miss Katherine Sweeney of Dover are enjoying a portion of the vacation term at this resort.

Mr. and Mrs. Frank Collins and family have returned to their home in Manchester after enjoying a fortnight's stay at their cottage in the Manchester settlement.

Mr. and Mrs. B. P. Cole of Newburyport, Mass., are recent arrivals registered at the Ocean house.

## Soak the clothes over-night.

It loosens the dirt and makes the work of washing very much easier.

Use three tubs, one for table linen, one for bed and body linen, one for the soiled towels and cloths.

Wet the clothes, rub Lenox Soap Solution over the soiled parts, fold and roll each piece by itself, pack in a tub, cover with warm soapy water and let stand over-night.

TO MAKE LENOX SOAP SOLUTION.—Take a cake of Lenox Soap, cut it into small pieces, dissolve these in three quarts of boiling water. Keep water at boiling point until a solution is formed.

Lenox Soap Solution does better work than soap; and is more economical, because there is no waste.

on the grounds by the Congregational church there will be athletic sports with prizes for baseball, potato race, three legged race, cracker race, 100 yard dash, 1-4 mile race.

If the rest of the week can have as satisfactory weather as Sunday and Monday the success of the celebration is assured.

Many houses, the public and semi-public buildings, and all the places of business in town have been lavishly decorated for the occasion, and the visitors to the old town are finding a scene of rare beauty. Elliot is a handsome and well kept town, anyway, but just now the people are making a little extra effort.

## NEW CASTLE NEWS

### Midsummer Festival was a Financial Success

### Returns from the West and Takes a Place in Boston

New Castle, Aug. 8.

Pythian hall will be the mecca this evening for all who are pithily ambitious to trip the light fantastic toe. The occasion being the long planned masquerade ball given under the personal supervision of Prof. Behr, leader of the Wentworth House orchestra. And while I haven't been invited to blow my horn relative to this affair, yet I am in line to know that it will be one of the grandest affairs along these lines that was ever held here. Having gotten more than a bird's eye view of some of the home brew costumes that would rival any costumers' outfit and of others belonging to the Globe trotting element who summer here collected while in distant countries will largely aid to forming one of the most unique, grotesque, brilliant assemblages of little slipped feet that has ever polished Pythian ballroom floor.

It is very gratifying to learn of the financial success of the recent Mid-Summer festival and must well repaid the ladies who worked so long and earnestly for that end. In those days of good, bad and indifferent summer entertainments it is exceedingly hard to collect a fair sized audience, but whenever the King's Daughters announce any form of entertainment it is sure to be a howling success. They are deeply gratified for all who took part in the entertainment or in any way assisted in the well merited cause.

Mr. Thomas Mather of Lowell passed Saturday and Sunday with his family.

Mrs. Sadie Fay and son, who have been passing a five weeks' sojourn with her parents, have returned to her home in Swampscott.

Mr. Forrest Becker, who recently returned from a several months' sojourn in Amboy, Minn., and Denver, Colo., while being very pleased with the flamboyant West, but owing to the water being injurious to his health, has accepted a position in Boston and left for there on Saturday. Mr. Mortimer L. Raynes and family of Portsmouth passed Sunday with Quartermaster's Sergeant Goodman and family.

## NAMED "WITH RELUCTANCE"

Gore Mentioned Sherman Only Because Hamon Did HE WANTS IT FORGOTTEN

Choctaw Delegate to Washington For His Tribe Says That McMurray, Contract Holder, Offered Him Bribes of \$25,000—Curtis and McGuire Deny That They Were "Interested" in the Indian Land Deal

Muskogee, Okla., Aug. 8.—Senator Gore issued the following statement relative to Vice President Sherman: "I have never, either in the senate or before the investigating committee, made any charge whatever against Mr. Sherman. I never said he was interested in the McMurray contracts, directly or indirectly. The vice president's name was mentioned to me by Hamon as the man higher up who was interested in the contracts. "When I testified before the committee I was under obligation to relate all that Hamon had said, and when it came to mentioning what Hamon had said to me about Mr. Sherman, I named the vice president with extreme reluctance. I had no alternative but to tell the truth.

"I think I owe it to Mr. Sherman and to the country to hope that the fact that Hamon mentioned Mr. Sherman will be relegated to perpetual oblivion."

Not only Jacob L. Hamon but J. F. McMurray was mentioned as a would-be briber in the investigation of the \$3,000,000 Oklahoma Indian land deal before the special congressional committee.

McMurray is the holder of the contracts with the Choctaw and Chickasaw Indians, to promote which in congress Senator Gore charges he was offered a bribe.

D. C. McCurtain, a Choctaw Indian and a delegate to Washington for his tribe, charged that in 1906 McMurray offered him a bribe of \$25,000 to withdraw opposition to the old tribal McMurray contracts which subsequently were disapproved by President Roosevelt.

Green McCurtain, chief of 18,000 Choctaws, a venerable Indian of 62 years, took the stand and told the committee that one George W. Scott, who he believed acted in the interests of McMurray, offered him one-fourth of the "profits" to be realized from the land deal, provided he induced the tribe to withdraw all opposition to the deal. This offer referred to new contracts held by McMurray, which are the cause of the present investigation.

The amount of the bribe mentioned by D. C. McCurtain, who is a son of the chief, is the same as that which Gore alleges was offered him on May 6 last by Hamon to get through the pending contracts which, according to Gore, would result in the sale of 450,000 acres of coal, asphalt and timber lands owned by the Indians to a New York syndicate on a basis that would give McMurray and his associates an "attorney's fee" of 10 percent, or \$2,000,000.

The presentation of the charges against McMurray followed another day of sensational testimony, during which Senator Curtis of Kansas and Congressman McGuire of Oklahoma appeared on the stand to refute statements that they were "interested" in the deal.

Senator Curtis testified to having been summoned by telephone to the White House to discuss there with President Taft and Vice President Sherman the merits of the McMurray contracts. President Taft expressed the belief that the 10 percent fee was too high, and his visitor agreed with him. This, the senator thought, sufficiently refuted the imputation that he was "interested" in the land deal.

Congressman Cragger of Oklahoma attacked the testimony previously given by Hamon, whom he accused of having suggested that he might obtain an "interest" in the contracts. This Hamon denied.

Congressman McGuire denied he ever was "interested" in the contracts, or sought their approval by congress. He asserted he was never improperly approached in regard to the contracts.

R. L. Murray of the Chickasaw tribe said Governor Johnson of that tribe urged him repeatedly to induce as many Indians as possible to send telegrams to Washington to have the contracts approved, which he refused to do.

**Little Heroine Drowned**

## THE GLOVER MURDER

Number of Interesting Revelations When Trial of Miss Le Blanc Occurs  
Cambridge, Mass., Aug. 8.—The distinct surprise sprung last week when the brothers who unsuccessfully contested the will of Clarence H. Glover, who was murdered in Waltham last November, were granted a jury trial, is followed by a rumor that there will be one or more additional revelations in connection with this mysterious case, when Battle Le Blanc is called to the witness stand.

The rumor is to the effect that one or more persons may be tried jointly with the little French girl on a murder charge. Under the direction of District Attorney Higgins, it is known that detectives have been working quietly on this case, and it is believed that they have uncovered facts that have never reached the public.

The prisoner in the East Cambridge jail has told her story many times. Her additional knowledge of English since she was locked up has enabled her to give facts which she did not regard as important, that will prove, it is believed, of immense assistance in her defense.

**MOUNTED POLICE ON TRAIL**  
Bandits Murder Stage Driver and Make Off With Bar of Silver  
Albuquerque, N. M., Aug. 8.—For the second time within a week the Mogollon-Silver City stage was held up and robbed, murder being added to the crime. Jose Dominguez, the driver, was riddled with bullets.

The robbers gathered up twelve bars of silver bullion, being the supply of the Ernestine Mining company and the Socorro Mining company, which were being shipped out from the mines, and left the scene. They met no further resistance, as the stage was making its trip without passengers.

Mounted police took the trail and within a short time found eleven of the twelve silver bars lying at the roadside near where the stage was robbed. Evidently the bandits were too great for the robbers and they abandoned all but one bar of the treasure, which is valued at about \$1500.

## PLANNING TO AVOID FOSS-VAHEY CONTEST

Hamlin Urged as Compromise Candidate For Governor

Boston, Aug. 8.—There is considerable talk in Democratic political circles of putting forward Charles S. Hamlin as a compromise candidate for governor this fall and shelving both Congressman Foss and James H. Vahey.

Those who have been talking Hamlin say that there seems to be little chance of getting either Foss or Vahey to retire for the other and they suggest that Hamlin would be a candidate on whom Democrats as well as insurgent Republicans could unite.

Mr. Hamlin was a candidate against William A. Gaston for the Democratic gubernatorial nomination some years ago, but was defeated.

## CRIPPEN ATTENDS CHURCH

Prison Officials Stretch the Rules in Favor of Miss Leneve

Quebec, Aug. 8.—With an armed guard on each side of him, Dr. Crispin attended divine services Sunday in the Catholic chapel of the provincial jail. Miss Leneve spent the day reading in a comfortable room she is allowed to occupy apart from the other women prisoners.

Although the prison rules prescribe that all inmates shall attend Sunday services unless they are ill, Miss Leneve made such a strong protest that the jailer decided to permit her to remain in solitude. The girl shows a dread of encountering the stares and the comments of other jail inmates.

## A BULL FIGHT THE FEATURE

Sunday Passes Off Quietly at San Sebastian

## PEASANTS' COURAGE GONE

Took to Their Heels, Along With Priests, When They Found City in Possession of the Military—Thousands Drawn by Curiosity Rather Than With Intention of Taking Part in Proposed Demonstration

San Sebastian, Aug. 8.—The government's rigorous measures and the formal renunciation by the Catholic junta of the threatened demonstration in this city insured comparative tranquillity Sunday and a largely attended bull fight was the chief incident of the day.

From daylight the streets were patrolled by cavalry, infantry and gendarmes, while heavy bodies of troops were held in readiness in the barracks at Miramar palace, where the queen mother and the royal children are in residence.

The gravest incident occurred Saturday evening, when groups of Catholics assembled, shouting "Death to Spain!"

Thousands of indignant people rushed towards the manifestations and only the personal intervention of the governor at the head of a platoon of police prevented an attack. Nearly 150 arrests were made.

Many amusing scenes were witnessed. Priests leading trudging bands of peasants took to their heels when they found the city in possession of the military. The peasants, all their courage gone, were disarmed and easily persuaded to return to their homes. In some cases the soldiers were compelled to supply the poor people, who had come into the city to rail at the government, with food.

Some apprehension arose that the bull fight would cause trouble, for there were many thousand manifestations in the city, and a large number of them proceeded to the arena, but it passed off without unduly incident.

As a matter of fact thousands were drawn to the city by curiosity and to attend the bull fight, rather than with any intention of taking part in demonstrations. There were a few street brawls, and seditious cries and the arrests which sometimes followed were among the most exciting incidents. Absolute order prevailed last evening.

Official advices indicate that all is quiet throughout the Basque provinces. All except a few of those arrested will be liberated today.

The local authorities are convinced that the Catholic demonstration was a Carlist plot. Catholics are extremely indignant at the government's repressive measures. Senator Arguillo, the chief organizer of the movement, said that the purpose of the manifestation was peaceful.

The authorities declare that the monks have taken an active part in fomenting the agitation, and it is charged that they have distributed arms among the people.

**Victory For the Government**  
Madrid, Aug. 8.—Premier Canalejas announces his intention to expose before parliament the conspiracy against the government in the north of Spain. The general impression here is that the government has won on Saturday at San Sebastian which would have been sure to have caused bloodshed.

The Liberal and Republican newspapers urge the premier to follow up his advantage vigorously. The Universal, a Catholic organ, declares that the course of the government betrays fear.

**Alfonso's Plans Unchanged**  
Coves, Aug. 8.—King Alfonso appeared reassured by the cheerful news from San Sebastian. His plans are unchanged and he will go with Queen Victoria to Eaton hall on Wednesday, as the guest of the Duke of Westminster, remaining there until Friday.

Mrs. Cudaby declares that she would almost as soon lose her life as lose her children and she is preparing to file counter charges against her husband if a petition for divorce is filed against her.

It is known that for some time Cudaby has been getting evidence upon which to base his suit. Chauffeurs who have had occasion to know of Mrs. Cudaby's movements have been approached and others whose testimony might aid him in securing the separation from his wife have been sought.

New York, Aug. 8.—A commission in lunacy has been appointed by Justice Rischhoff in the supreme court to examine Joseph R. Hughes, wealthy husband of Belle H. Hughes, who gave up a stage career with the "Bostons" to marry a man many years her senior. They have been living at the Plaza hotel since they returned from Europe last May.

In her application to have her husband declared mentally incompetent, Mrs. Hughes charges that in the last two months he has acted peculiarly, spending most of his time reading the newspapers upside down. His personal property, according to Mrs. Hughes, is valued at \$300,000.

## "BASEBALL IN HEAVEN"

Preacher Thinks It Will Be Played in Some Spiritual Form

Mattapoisett, Mass., Aug. 8.—"Baseball in Heaven" was the subject of a sermon preached yesterday by Rev. C. Julian Tutill, pastor of the Congregational church.

In his sermon Tutill declared that there was no reason apparent why the great national game of America should not be found in some form or another in the world to come. He said in part: "Heaven is but an evolution of this world. A Christian may love a ball game and loving it remain a Christian. Why then is it not safe to prophesy that even the game of baseball will have its place in some spiritual form in heaven?"

## REFUSES TO WED SISTER

Traditions of His Nation Are Upset by Crown Prince of Siam

San Francisco, Aug. 8.—The crown prince of Siam is adding gray hairs to the head of his royal father, King Chulalongkorn, and has set the country by the ears generally by defying the traditions of a long ancestral line in refusing to marry his sister.

According to Rev. C. Dodd, a Presbyterian missionary who arrived here yesterday, all Siam is agog over the prince's announcement. From time immemorial, the missionary says, it has been the Siamese custom.

## MRS. MARILLA RICKER

Women Lawyer Candidate For Governor of New Hampshire

## WANTS 1000 SIGNATURES

Mrs. Ricker Is Determined to Run For Governor

## NOMINATION PAPERS OUT

Her Counsel Criticizes Official Ruling Which Denied Woman Right to Enter as Candidate at Primaries—Believes Old Law Is Operative and Says That All His Client Demands Is a Square Deal

Concord, N. H., Aug. 8.—The strenuous fight being made by Henry Robinson, attorney for Marilla M. Ricker, who seeks to have her name placed upon the ballot as a candidate for governor at the next election, has developed a new turn.

An effort to have her name officially on the ballot by means of nomination papers has been begun. This will require 1000 signatures of qualified voters, and Robinson believes he can easily secure them. He maintains that the old law, relative to securing places on the ballot by nomination papers, is still effective, notwithstanding the direct primary law.

Many authorities are quoted in support of this new ground of contention, and the followers of Mrs. Ricker, in answer to the claim that she could not take the governor's chair if elected, say clear her and let the courts settle that question, which, they claim, would be favorable to the woman candidate.

Mr. Robinson gives the following statement regarding Mrs. Ricker's maneuvers toward furthering her candidacy:

"Marilla M. Ricker has sent up a Macedonian cry for help. Long-time widow that she is, her clarion bugle call is now for a thousand men—a thousand accredited New Hampshire voters—to sign her nomination papers, and thus put her name regularly on the official ballot, which the secretary of state, under the advice of the attorney general of New Hampshire, now declines to do."

"One of the provisions of the new primary election law stipulates that candidates for elective offices shall be nominated—(1) by a primary held in accordance with the act; or (2) by nomination papers signed and filed as provided by existing statutes."

"The old law, thus clearly referred to, remains perfectly intact for this purpose, and gives the secretary of state no such arbitrary authority as Secretary Pearson, as advised by Attorney General Eastman, is now assuming to exercise."

"All that Marilla M. Ricker demands is a square deal. Many voters, some of whom may not favor the policy of electing any woman to the office of chief executive, even as capable and accomplished a one as Mrs. Ricker, are nevertheless insistent that she be treated with the courtesy and consideration becoming her sex, embodying and exemplifying, as her present candidacy does, the great cause of equal rights, to which her active life has been so largely devoted."

**Food Is Becoming Scarce**  
Campbellton, N. B., Aug. 8.—Campbellton faces a new disaster. The food which the relief committee has been distributing daily to the sufferers, who have no other means of avoiding starvation, is almost exhausted, and unless more money is forthcoming the building fund must be drawn on to keep the people alive.

**Escaped Convicts Outwit Hounds**  
London, Ky., Aug. 8.—Throwing bloodhounds from their trail presumably by the use of cayenne pepper, three men who escaped from the jail here entered a dense wood near Woodbine and the Lexington police force and the posse gave up the chase and returned to London.

## ROSE PITONOFF'S FEAT

Makes First Uninterrupted Swim From Hub to Boston Light

Boston, Aug. 8.—At last the swim from Charlestown bridge to Boston light has been accomplished without dispute. Yesterday a stocky school girl succeeded where the most experienced and hardy male swimmers have failed.

Rose Pitonoff, 15 years of age, is the one to battle successfully against the treacherous tide and waves, and after 6 hours 5½ minutes of exhaustive work in the water, stepped triumphantly ashore at the light that guards the outer entrance of Boston harbor. The distance is approximately twelve miles.

Clever male swimmers who started in the contest soon fell by the wayside. It was a most wonderful exhibition of swimming and was witnessed by thousands of people at different points of her course.

Conditions were against her, and even Annette Kellerman, who was supposed to be the greatest of all women swimmers, failed where Miss Pitonoff succeeded.

## PART OF SPINE MISSING

Boston Man Fully Recovers From Delicate Surgical Operation

Lawrence, Mass., Aug. 8.—With an inch of his spinal column missing, one of the vertebrae having been removed by surgeons when they believed it to be the one chance in a thousand of saving his life, Alexander Potter of Boston walked from the hospital Sunday. His neck was broken in an automobile accident July 10.

A companion in the accident, who at the time was thought to have been only slightly injured, Walter G. Boardman, died a few days after the smash.

When he was released from the hospital Potter was told that if he was careful how he handled his head and neck there was no reason why he should ever suffer any inconvenience from his missing vertebra.

## SPENCER COMPLAINS OF PAINS IN HEAD

Plea of Confessed Murderer Will Be That of Insanity

Springfield, Mass., Aug. 8.—A plea of insanity will be made, according to police authority, in the case of Bertram G. Spencer, the self-confessed murderer of Miss Martha B. Blackstone, a Springfield school teacher.

In his confession to the police Spencer told about having suffered severe pains in the head since being struck on the head when a boy. He has complained much of pain in the head during his confinement in jail, but his health otherwise has been good.

In his confession Spencer told the police he had committed many burglaries in Springfield during the past two years, admitting that he was the long-sought "Gentleman Burglar." Miss Blackstone was shot while an attempt was being made to commit burglary.

## "BEAT THEIR FRIENDS"

Son of Former President of Cuba Quietly Weds New York Girl

New York, Aug. 8.—Thomas E. Palma, son of the late President of Cuba, and Miss Helen D. Browne of this city, an heiress in her own right, suddenly abandoned their plans for an elaborate wedding and were quietly married in the presence of the bride's mother and a few friends in Grace Episcopal church.

"We just didn't want a big wedding and all that fuss," said the bridegroom, "and we wanted to beat our friends."

The date for the wedding had been set for Aug. 15, according to a statement made by the young couple when they applied for their license on July 29.

## EGG HATCHED IN STOMACH

Death Comes to Pittsburg Man Who Partook of Turtle Soup

Pittsburg, Aug. 8.—William Douglas of the North Side is dead as the result of a turtle's egg hatching in his stomach.

A few weeks ago Douglas partook of some turtle soup. Four days after taking the soup he became ill and numerous physicians were unable to diagnose his disease. His death resulted.

An autopsy was performed and a partially formed turtle, almost as large as a hen's egg, was found in his stomach.

## THE TARIFF LAW'S WORKINGS

The Republican party managers have reason to be pleased with at least one feature of the workings of the new tariff law. It is producing revenue enough to run the government and there is no deficit to report.

July, much the poorest month in the year, for revenue, shows an increase of some millions of dollars over last year, in spite of the work of the importers to have immense stocks on hand in the spring and latter in the summer or fall.

It is clearly not an act in restraint of trade, as some have claimed, for trade is increasing marvelously under its conditions.

That it is a perfect tariff, nobody claims. That it is a credit to the congress and the president who enacted it, is proven by the condition of manufacturing and commercial businesses under it.

There isn't much for Democratic argument in the results of the tariff law.

## AMONG OUR EXCHANGES

## What Will T. R. Say?

"As for Mr. Roosevelt," says Mr. Kettle, a member of the British House of Commons, "he does not seem to be a person of very great importance." The question now before the house, arising from this unfortunate remark, is whether an Englishman can be admitted to full membership in our National Annapolis club.—*Laconia Democrat*.

## Common Ground on the Tariff

If the tariff is really the chief cause of dissension between insurgents and regular in the Republican party, a speech that Senator Cummins made at Council Grove, Kan., on Friday of last week would seem to indicate that the conflict is not by any means of an irrepressible type.

Rolling Senator Cummins' speech into a few words, he argued that there were abuses in the making of the Payne tariff, and that the way to remedy tariff conditions in the future was: First, the establishment of a tariff commission to collect for congress exact information as to the costs of production here and abroad; and second, for congress to make a rule whereby it can revise any one schedule without changing the entire tariff.

The average Republican will find little to complain of in this program. There may be a few standpaters who would object to it, but the standpater is as hopelessly out of touch with Republican sentiment as the man at the other end of the line who talks tariff revision along protectionist lines, but who is really shouting for free trade.—*Cincinnati Times-Star*.

## Value of Veterans and Recruits

General Leonard Wood, by grace of presidential favoritism now chief of staff of the military establishment of the United States, has delivered himself as follows: "As long as a standing army is required for the maintenance of such an army it should be young, active and aggressive. As it exists today it may be described as an army of veterans. When such is the case there is danger of loss of enthusiasm. The soldier who has been from five to twenty years of service does not accept instructions as readily as the recruit."

Napoleon did not think so. He

said at St. Helena that his overthrow at Waterloo was altogether due to the fact that his army was largely composed of raw materials instead of the veterans who had learned discipline and steadiness in the campaigns of Austerlitz and Friedland. Russia and Spain, he mourned, had "swallowed up the iron soldiery of my once invincible legions, and the impetuous courage of the new levies could not stand against the seasoned discipline of the British troops."—*Norfolk Virginian-Pilot*.

## Canada a Nation?

The full significance of Sir Wilfred Laurier's statement that Canada is not a colony but a nation goes beyond the question of naval defence. British statesmen grant that it is a "self governing colony" and they have made it so. They are disposed to treat it somewhat as a partner with the United Kingdom in the empire, but it is not independent in its relation to other nations, nor wholly so in its relation to the Kingdom. Its governor general may be a figurehead but its bond with the Kingdom is something more than one of partnership. It can make its own tariffs and it may negotiate agreements of reciprocity with other countries, but it cannot make binding treaties and it can have no diplomatic representatives of its own.

Canada may be content with the position of a "self governing colony" of the British empire so long as she finds it to her interest or advantage, and may accept the patronizing of British statesmanship so long as it is agreeable; but if the time should come when any serious differences arose with the mother country this consciousness of being a nation would be likely to assert itself. There would probably be no fighting for independence; there would be no occasion for it. If it was earnestly desired and seriously demanded as "of right" by the general sentiment of the people, it would doubtless be peaceably granted. If this national consciousness grows and with it a sense of no need of defence by the empire, the bond of dependence may become so weak that independence will come as the mere result of maturity.—*New York Journal of Commerce*.

## A Credit to the Administration

There is no reason for pessimism in a study of the federal finances as set forth in the statement issued from the treasury department regarding the transactions of the past month. With a grand total cash in the treasury of nearly one and three-quarters billions the United States cannot be regarded as in the least degree approaching bankruptcy, whatever may be its obligations. With over ninety-two millions in the general fund and a working balance in the treasury office of over thirty millions and a showing of a debt reduction during July of over half a million, the Treasury is in a position to give great encouragement to the administration.

Whatever may be the political effect of the tariff legislation of last year, the statute is undoubtedly bringing funds to the treasury.—*Washington Star*.

## IN MEMORY OF DEAD PASTOR

Special Service Held at St. John's Church on Sunday

In conjunction with the feast of the transfiguration, celebrated Saturday in St. John's church, the rector, Rev. Harold M. Folsom, and the parishioners commemorated the death of Rev. Henry Emerson Hovey, who for more than twenty-five years was rector of old St. John's. The day was the anniversary of Rev. Mr. Hovey's death.

During the special service in the chapel at 10.30 o'clock Saturday morning prayers were said for the former rector, and again in the afternoon at 5 and at the evening service. The present rector, the warden and the vestry decorated the chapel with flowers and an imposing wreath.

Mrs. Hovey occupied the family pew. With her were her three daughters, Mrs. William A. Seabury of New York, Mrs. Scudder Klyce and Mrs. Austin Rault. Mrs. Laurin Martin of Lowell, Mass., a sister of Rev. Mr. Hovey, came to this city and attended the services with Mrs. Hovey and her daughters.

During the day the mourners went to the grave in St. John's cemetery and placed their floral offering upon it.

THOMAS F. BURTT

Story of Life and Death of Former Portsmouth Citizen

The Stoneham, Mass., Weekly Independent for Aug. 6 publishes the following:

## Ohio Republicans Have a Leader In Warren G. Harding.

Warren G. Harding, whom the Republicans of Ohio hope will lead them to victory this fall, is a native of the state and for several years has been editor and proprietor of the *Marion Star*, one of the largest papers of that section of the Buckeye State. He served in the state senate and was lieutenant governor under Myron T. Herrick. He was at one time an active supporter of Senator Foraker, but recently has not allied himself with any faction of the Republican party.

nd illness. His failing health dates back about two years ago, when an accident he sustained by being thrown from a Wakefield car caused a serious injury from which he was unable to recover. Although a native of Wilmington, Mass., he came to this town when a comparatively young man and for years was engaged in the jewelry, watch and clock making business. The deceased enjoyed the esteem of a large circle of friends and acquaintances. He was a member of the Old Fellows lodge at Portsmouth, N. H., and also had been connected at one time or another with several other fraternal and social orders. One daughter, Mrs. M. Gertrude Creever of this town, and two sons, Walter E. of Exeter, N. H., and F. Fred of Alton, and one adopted son, Charles F. of this town, are left to mourn his decease; also six grandchildren, Everett J. Burtt of Flint, Michigan, Mrs. Chester F. Robie of Somerville, and Marian E., Irving W., William A. and Thomas F. Burtt, all of Exeter, N. H.

Funeral services for the deceased were held at the late home, Tuesday, at 2 p. m., Rev. George E. Lovjoy of South Lawrence officiating. The interment was at Lindenwood cemetery.

## AUTO STRIKES GIRL

Knocked From Wheel on Market Street, But Suffers No Injury

An automobile bearing a Massachusetts license No. 13127 ran into a young girl named Humphreys, on Market street this forenoon.

The girl was tossed from the wheel, but not injured. Her bicycle, however, was put out of commission.

There was considerable traffic at the time where the accident occurred and it is thought the girl, to avoid getting in the mix-up, tried to cross to the opposite side.

The owner of the machine, Prentiss Howard, of Webster, Mass., rendered every possible assistance to the girl, and before leaving the city, gave her a nice little sum of money to repair the damaged wheel. He also left his address with the police, who he instructed to inform him if anything further could be done on his part to aid the girl.

## AFTER TARGET RECORDS

Sailors of Naval Fleet at Provincetown to Practice

Provincetown, Mass., Aug. 8.—With most of the desirable world's records for big gun fire chalked up to their credit, the sailors of Uncle Sam's Dreadnoughts now engaged in summer maneuvers in Cape Cod waters will go after mining records the coming week.

The Virginia, Vermont, Rhode Island, Minnesota and Nebraska arrived in the harbor from Newport, R. I. on Sunday, to join the other big craft and today will compete with the other ships in mine laying.

In last year's work the Atlantic fleet established a mark of making

up and getting overboard in the proper positions twelve miles in sixteen minutes. This was considered pretty good work. But this last week some of the ships have made and planted the twelve miles in six minutes and some of the officers believe that even this astonishing record can be bettered.

Interest among all the crews is nearly as keen as in the target practice and the navy department at Washington attaches great importance to the work planned for the coming week. Some ships will have their trials in the harbor today, and high percentages are expected.

About 2000 men were granted shore leave Sunday.

## CIRCULAR ON THE NEW PRIMARY LAW

Prospective Action By the Republican State Committee

Concord, Aug. 8. A meeting of the Republican state committee will be held in Union hall, Concord, Friday evening, Aug. 12, at 9 o'clock, for the purpose of discussing the new primary law and considering what action, if any, the committee will take in connection therewith.

Chairman of the committee Judge Oscar L. Young, has issued the following circular in regard to "The Direct Primary Law":

Republican State Committee Headquarters, Concord, N. H.

Aug. 4, 1910.

To the Officers of Republican Clubs:

Your special attention is called to the following provisions of "The Direct Primary Law":

Section 4 fixes the date of the primary as the first Tuesday in September; paragraph 2 of the same section provides that each town and ward shall elect as many state delegates as such town or ward is entitled to elect representatives to the general court.

Paragraph 5 of section 6 provides that the declaration of candidates for the house of representatives, moderator, supervisors of check lists, and delegates to the state convention shall be filed with the clerk of the city or town within which such officers are to be voted for. Paragraph 4 of section 6 provides that such declarations of candidacy shall be filed twenty days before the primary.

Such vacancies upon the party ticket as occur after the holding of the primary can be filled by the party committee, but the committee has not power to fill vacancies upon the ticket when no declaration has been filed.

In order to avoid vacancies it is essential that the declarations of candidates for the offices above mentioned be filed as early as the 10th of August, otherwise the town or ward will not be represented in the state convention, and the party will be without candidates on election day.

It is deemed important that this matter be given the immediate attention of the officers of the town and ward Republican organizations.

Yours very truly,

OSCAR L. YOUNG, Chairman.

HARRY J. BROWN, Secretary.

## CELEBRATED GOLDEN WEDDING

Captain and Mrs. Josiah N. Jones  
Make it a Quiet Event.

Captain and Mrs. Josiah N. Jones of Dennett street on Sunday very quietly observed the 50th anniversary, or their golden wedding.

Capt. Josiah N. Jones was born in Wakefield, N. H., April 6, 1835, the son of John and Rhoda W. Jones. He remained on the farm until 15, when he went to Boston, and for a time worked as a clerk in a store. In March, 1851, he commenced work as an apprentice in the blacksmith shop of the old Eastern railroad.

In 1854 he went to Chicago and worked for a time at his trade. The following winter he boated on the Mississippi river between New Orleans and Cincinnati.

In 1859 he returned to Lawrence, Mass., and became a member of Co. F of the old 6th regt. vols. On April 15, 1861, the day that President Lincoln issued the call for 75,000 men, Jones waited about the telegraph office until 4 in the afternoon, and when the order calling out his regiment came, rushed to the armory and within a half hour was uniformed, all ready to march, probably being the first volunteer to put on his uniform or respond to the first call for troops. He served in the 6th regt. three months and 17 days.

Upon his return from the front he visited his old home in New Hampshire and enlisted for another term of service. With Capt. Quarles he raised a company of 80 men and became first lieutenant of Co. D 6th regt., N. H. volunteers. He was promoted to captain of Co. F on Aug. 4, 1862.

In 1864 he was detailed by Gen.

Griffin to command the 32d Maine regiment and served in that capacity for four weeks and later in the same year he commanded his own regiment for nearly three months. His three years having expired, he returned north and was raising a company at Ballardvale, Mass., when the news of Lee's surrender was received. After the war Capt. Jones resided in Lawrence, Worcester, Mass., and Waterbury, Me., but for the past seven years he has made his home in this city, where he intends to pass the remainder of his days.

He is a past commander of post 10, G. A. R., of Worcester, Mass., a member of Enterprise lodge, I. O. O. F., of Waterbury, Me., and Storer post, I. G. A. R., of this city. He is also president of the old 6th Massachusetts and old 6th New Hampshire regiments associations; also historian for the old 6th Massachusetts.

In politics he is a staunch republican and in 1909 represented ward 1 in the New Hampshire legislature.

He married Miss Mary Elizabeth Rhodes, daughter of Aaron and Ruth Rhodes of Waterbury Center, Me., the ceremony taking place at West Haverhill, Mass., Aug. 7, 1860, being performed by Rev. M. J. Steere, pastor of the Universalist church. Mrs. Jones is a descendant of revolutionary stock, both of her grandfathers served in the revolutionary war. As the result of the union one child was born, who died in early youth.

Mrs. Jones is a member of Storer relief corps, Ladies' auxiliary to Storer post 1, G. A. R.

## RAILROAD LAWYERS

Statements as to What They Did

The convention of general counsel for 230,000 miles of American railroads, closed its four day session at Hotel Wentworth on Saturday afternoon. The members of the convention were certainly a busy group of men while here, for they were in session from 8 o'clock in the morning till luncheon time, from two o'clock in the afternoon till dinner time, and held two evening sessions.

A statement giving general outline of the work of the conference was issued by a committee appointed for that purpose. So far as could be gleaned there appeared to be a general sentiment among those present in favor of a liberal interpretation of the amendments to the railroad law adopted by the last congress. This was particularly true of the so-called long and short haul clause, in the consideration of which much time was spent.

The lawyers who have been engaged in the conference generally express confidence that the interstate commerce commission will proceed conservatively, without making any rulings which will seriously disturb existing conditions.

There has been no disposition whatever on the part of anyone to suggest means of evading the act," said Edgar J. Rich, general solicitor of the Boston and Maine railroad. "The sole purpose has been to construe the act and to advise the railroad officials as to what they must do in order to comply with it in letter and spirit. The railroads have come to a realization that they are public servants and that their function is to serve the public. This is the spirit which has prevailed the conference."

Mr. Rich said with regard to the export rate clause of the recent amendments that the attorneys generally seemed to be of the opinion that there is nothing in the act which will interfere with the general practice of the railroads in giving lower rates on commodities intended for export than upon the same commodities intended for domestic consumption, by which, he said, the country was enabled to market its surplus products abroad.

The statement given out by the conference committee, of which R. Walton Moore of Washington, representing the railroads of the south generally, was chairman, follows:

"The conference has considered questions arising under the act to regulate commerce as recently amended by congress. The sections to which the amendments contained in the

## KILLED BY FALLING FROM TRAIN

Charles Jackson of Cambridge, as was supposed from the card found in his pocket, proved to be the man whose mangled body was found beside the railroad track in Hampton last Saturday morning.

The body was fully identified on Sunday forenoon at the tomb of Undertaker Oliver W. Ham, the identification being made by two brothers, John A. Jackson, Jr., and William H. Jackson. They received word on Saturday night from the Cambridge police, and came here on Sunday morning.

Jackson was 18 years of age and the son of Mr. and Mrs. John A. Jackson of Cambridge. He left home on Friday to look for work, going into his mother's room to bid her good-bye early in the morning. That was the last heard of him alive and his brothers think that he was on his way home when the accident happened.

A cut on his throat caused the railroad men at the station to think there might have been some foul play connected with his death as the wound did not have the appearance of being inflicted by the fall from the train. The medical referee is inclined to think different on this, and states that it could be caused in several ways and was not a clean cut.

Medical Referee Walker, after further investigation was convinced that the wound on the throat was made at the same time as the accident, for it had every indication of being made by car wheels.

His father and brother arrived here today to arrange for the disposition of the body.

## SEABROOK'S SHOE FACTORY

Raising Much Money in the Little Town on the Border

South Seabrook, Aug. 7.—As an enthusiastic meeting held in Mechanics hall on Friday evening, the Seabrook Builders Association showed that they are very much in earnest regarding the erection of a building for the Learned Shoe Company of Newburyport.

The finances are increasing daily, the spirit manifested reflects great credit upon the public spirited men who are the leaders of the plans.

President Ellsworth Brown, was in charge of the meeting, which was called at 8 o'clock. The principal purpose of holding the meeting in South Seabrook was to find out the attitude of the residents of that portion of the town in regard to the association.

As in other parts of the town, the residents are clamoring for a factory in the town.

A committee of five was appointed to select a suitable site for a building. This committee consists of Ellisworth Brown, Lincoln L. Brown, Randall Dow, John M. Small and William S. Lunt.

It was reported at the meeting that about \$9,000 had already been promised. As soon as the amount reaches \$10,000 the building will be started.

## GALLINGER AND THE CANDIDATES

A Little Political History of New Hampshire

The Union this morning shows by its attitude that it realizes that Bass cannot win in the primaries, as it has taken its old stand—in attacking President Lucius Tuttle, of the Boston and Maine Railroad and Senator Gallinger. The Herald can call one important part of The Union's article as the work of one dealing in untruths. The Union goes on to say "It is said that several weeks before he returned from Washington, Senator Gallinger expressed himself as very much opposed to a contest, but by the time he reached here he was very earnestly in favor."

The editor of this paper happened to be in Washington early in May and talked with Senator Gallinger and he said at that time he did not believe in Bass, that he had not had the experience and training for the position and that he did not believe that people wanted him. He said that he believed that Bass and a few others were trying to effect an organization simply to get into office, and that he hoped to see a man that would be up to the measure of the men that had filled the office of Governor, etc.

That does not look as though he had taken Bass as a candidate and hundreds of others can testify to the same.

The Union makes a mistake in dragging these men into all of its troubles and it is hurting the cause of its own candidate.

## FLYING AT PLUM ISLAND

Newburyport, Aug. 8.—Hundreds of society people who are summering at Plum Island Beach, were spectators of twelve successful aerial flights of a half-mile each. These flights were made by William L. Hilliard of Boston, in the new Burgess biplane recently purchased by him, and Joseph B. Shoemaker. In none of the twelve flights was a height of more than twenty-five feet attained.

Mr. Hilliard intends putting the new biplane to an endurance test, and after his successful flights great interest is being shown in the forthcoming event. The flights were the first successful ones made on the Plum Island aviation field since the recent mishap to the Flying Fish. It is also the first time any flights have been made here with wheels instead of skids attached to the machine.

## BROKEN NECK HEALED

Boston, Aug. 8.—Alexander Pottle of No. 34 Myrtle street, is at home today after having an inch of his spinal column removed at the Lawrence hospital. Pottle's neck was broken in an automobile accident at North Reading, July 10. A companion in the accident died a few days after the smash.

When he was released from the hospital Pottle was told that if he was careful how he handled his head and neck there was no reason why he should ever suffer any inconvenience from his missing vertebrae.

## MANY KINDS OF FLEAS.

About 400 Different Species Are Known to Naturalists.

One of the first naturalists who devoted themselves to watching fleas, with such microscopes as were then available, was Leeuwenhoek, a Dutchman, who lived at the end of the seventeenth century. Leeuwenhoek discovered that a small mite fed on the flea, and it was this discovery which inspired Swift's familiar lines:

So, naturalists observe, a flea  
Bath smaller fleas that on him prey,  
And these have smaller still to bite 'em,  
And so proceed ad infinitum.

The flea's parasite, however, to be accurate, is not another flea or even another insect, but is a mite classed among the sarcoptidae. Linnaeus, writing in 1763, described only two species of flea. The first, which was the human flea, he rightly named Pulex irritans. The second was the chigoe of hot countries. To this, on account of its burrowing habit, he gave the name of Pulex penetrans. At the present day about 400 different species of fleas have been described and named by the small band of scientific men who have devoted themselves to their study. Most of these have been discovered within quite recent years, so it is probable that many new forms and varieties will be collected and observed.—Harold Russell in London National Review.

## A QUEER FIND

## COFFIN PLATES IN BOX PICKED UP IN GREAT BAY.

James Murtough of Goat Island, Great Bay, picked up a box on Thursday morning, floating off the island, that contained what he thinks was the remains of two bodies. It was after the heavy storm of Wednesday night that he saw a water-soaked box floating in the water off his camp and he pulled it ashore. The box was securely tied up, and upon opening it he was surprised to find inclosed an old-fashioned cigar box, sealed with wall paper.

On the inside of this box were two coffin plates much tarnished, but after much rubbing they disclosed the inscriptions:

"Hannah E. Allen, died Sept. 17, 1857; aged 21 years."

Mrs. Jane Remick, died Oct. 5, 1853, aged 61 years, 8 months 13 days."

In the bottom of the box were two little silk bags containing something that resembled ashes.

There was nothing to weigh the box down so that it would sink, but from the condition of the outer box it had evidently been water-soaked for some time. The supposition is that they were cast overboard somewhere, and eventually found their way into the bay.

How long they have been in the water and under what conditions they were thrown overboard is mere guess work.

## ENGINES IN COLLISION

BOTH TRYING TO MAKE SAME

SWITCH IN YARD—TRACK WAS

BLOCKED.

Two engines of the southern divi-

sion, Nos. 218 and 242, were in collis-

ion in the railroad yard early Satur-

day evening, and both were derailed

and somewhat damaged.

Both engines were making for the

round house and both attempted to

take the engine house switch at the

same time. The result was a collision

in which both cars were derailed

and the running gear of both damag-

ed, some parts being stripped.

The engines blocked the westward

track and the wrecking crew were

over three hours in clearing it up

and getting the engines back on the

rails and into the house.

Mark Smith is only 23 years old,

and he was 21 when he took up the

title role of "The Travelling Sales-

man," which led to his present po-

sition in "Three Million Dollars" at the

Colonial.

"My diamond tiara has been stolen"

exclaimed the star. How much was

it worth? asked the press agent.

"That's up to you," replied the star.

"It ought to be worth at least a col-

"The Gamblers," the first of a num-

ber of plays presented by the authors'

producing company, will be brought

into New York, after a short prepa-

ratory tour, for an extended engage-

ment, beginning in September. The

"Gamblers" is Charles Klein's latest

effort.

A. E. Matthews, one of England's

foremost light comedians, has been

selected for the principal part in

"Love Among the Lions," a farcical

romance in four acts by Winchell

Smith, author of "The Fortune Hunt-

er."

Paris is said to have a new idol in

the person of Mlle. Lucie Lantelme's

an actress of varieties. Mlle. Lantel-

me's eyes are peculiar and pensive,

and it is her "glorious sadness" that

has won her the admiration of the

gay city. She has a sweet, ethereal

look, and appears at times to be on

the verge of tears, and when she

rides through the Bois instead of

casting kitchin glances from side to

side she gazes sorrowfully straight

ahead.

"The Climax" which opens the

Park theatre, was the first work se-

lected by Charles Frohman for mid-A-

tantic presentation upon one of the

steamers between New York and Liv-

erpool.

There are about 2000,000 organists

in this country, and it is the purpose

of the national association of organ-

ists to gather most of these into one

organization. The work was begun

two years ago when the first national

convention was called to meet at

Ocean Grove, N. J. The third con-

vention will be held at Ocean Grove

during the first ten days of August,

and the national superintendent, Tall

Eben Morgan, who has charge of the

organization work, reports that

there will be representatives from all

parts of the country and Canada,

numbering several thousand organ-

ists and conductors.

"I have every reason to remember

my debut on the stage," said Sir Charles

Wyndham in a recent interview.

"In the first place, John Wilkes Booth

was in the same company. We opened

at Washington and I appeared as

a character who had to declare "I

am drunk with love and enthusiasm."

Having uttered the first three words

I was seized with stage fright and

said no more. This is what I read in

a New York paper next morning: "A

Mr. Wyndham represented a young

man from South America. He had

better go there himself."

Charles Marks has a new musical

comedy in view, and just as soon as

he sees "Three Million Dollars" well

started at the Colonial theatre he will

return to New York to start rehears-

als for this second production of the

season for the manager who was id-

entified with Richard Carlo in so

many of his successes.

At a meeting of the executive com-

mittee of the New Hampshire golf as-

sociation at the Country club, the

conditions under which the Rollins

championship cup will be played for

was arranged.

## FELL IN THE DOCK

Colored Boy Drops Off Broughton's Wharf

On Sunday afternoon a colored lad residing on Daniel street fell into the river from Broughton's wharf. His cries attracted the attention of some men on the dock and one of the party, George Russell, went to his aid and succeeded in getting him on to a nearby float. The boy suffered nothing more than a lot of fright.

## Penacook and Paducah survey Board

## Contract Awarded for Barracks and Stable

## Assisted the Tugs

The ferry 132 was taken from some of her regular trips this forenoon to assist in the moving of the several vessels at the yard.

## Murphy on His Good Behavior

It is noted especially among the crew of the U. S. S. Wisconsin that Murphy, the kangaroo, is on his very best behavior of late and customary funny stunts are shy. The remainder of the crew can only account for this through the departure of the most of the crew to other ships.

## Docking and Shifting

Capt. Evans directed several moves in the yard vessels this forenoon. The collier Sterling was put in the dry dock, the U. S. S. Maine temporarily shifted to the coal dock and the Wisconsin put in the berth of the U. S. S. Maine.

## Board to Work on Paducah and Penacook

The board of survey to look over the tug Penacook, is due here tomorrow. This board is at present on a trial trip of the U. S. S. Delaware, and may be delayed in the visit to this yard. While here they will also look over the gunboat Paducah.

## Contract Awarded

The contract for the building of junior officers' quarters at the marine barracks and a stable in connection with the post has been awarded to contractor James Marcello of this city, the lowest bidder in five firms who offered figures on the work.

## Off to Rifle Range

A squad of eight marines were sent to the rifle range at Wakefield today for target practice. They were from the barracks.

## They Feel Good Today

The accounting department baseball stars have been smothered with congratulations today as a result of their first victory at Wadley's Falls on Saturday. Their battery has an expansion of the chest that cannot be pushed back with an axe and it is feared that some of them may leave Uncle Sam for the diamond work.

## This Ought to Help Out

With the coming of the torpedo boat destroyers Paulding and Drayton, cruiser Tennessee, gunboats Petrel, Wheeling and Dubuque later on it is expected that a good number of employees will find a winter's work at the yard.

## Three Off the Sick List

Walter D. Ramsdell, shipfitter's helper, C. H. Burnham, and Irving B. Fernald, electricians' helpers, who have been on sick furloughs, returned to duty today.

## Sunday Baseball

The first and second nines of the U. S. S. Wisconsin played a lively game Sunday afternoon, the former winning, 11 to 4. The score: Innings ..... 1 2 3 4 5 6 7 8 Wis. 1st ..... 0 2 0 0 6 1 2 —11 Wis. 2d ..... 0 2 0 0 1 1 0 —4 Batteries, Bowie, Meyers and Ayers; Leber and Devoll.

## Funny Case

Lieut. Comdr. Henry T. Baker, U. S. N., who was recently found guilty by a grand court martial at Puget Sound navy yard of making a false statement, was sentenced to lose fifty numbers and to be publicly reprimanded by the secretary of the navy. Acting Secretary Winthrop approved the sentences Aug. 1. The charges grew out of an answer made by Commander Baker to his commanding officer, in which he stated that his physical condition was better than it was. For this he was tried for falsehood. He has been under medical treatment at the Puget Sound navy yard.

## Boston's Ship Assignments

In the official assignment of ships to yards Boston gets the following vessels:

Georgia, Nebraska, New Jersey, Ohio, Rhode Island, Virginia, Birmingham, Chester, Salem, Chicago, Des Moines, Ammen, Monaghan, Patterson, Walke, Trippe, Bonita, Snapper, Stingray, Tarpon, Constitution, Essex, Iwana, Nash-

ville, Ranger, Scorpion, Sioux, Vesuvius, Wabash, Yantic.

## This Worw Was Good Here

Under the heading "Dull at Navy Yards" the Army and Navy Register prints the following: Appeals have reached the navy department from the various navy yards for additional work, now that the battleships have left the yards and rejoined the fleet. It was found necessary to have the Georgia return to the yard at Philadelphia owing to defects in the forced lubrication system, which has been installed on that vessel. The department has authorized preliminary work on the ships in ordinary in order to keep the navy yard force as busy as possible. It is expected that with the approval of the surveys on those vessels, the regular force at each yard can be pretty generally occupied.

## More About Cruisers and President's Trip

President Taft will make another visit to the Canal Zone early in November, and arrangements will be made to have two battleships assigned to the trip. The commander-in-chief of the Atlantic fleet has been instructed to designate two vessels, using the North Carolina, Montana or Tennessee. Upon the receipt of the recommendation of Rear Admiral Schroeder, the two vessels will proceed to the Portsmouth navy yard to be fitted for the service. It will be necessary to rearrange the cabin accommodations.

## WORK OF HOODLUMS

## Grand Army Complains of Vandalism at Goodwin Park

Commander Edwin Underhill, in half of Storer Post, G. A. R., has appealed to the city authorities to protect the Soldiers' and Sailors' monument in Goodwin park from vandalism.

It is stated that not only have hoodlums assailed the monument with rocks and stones and have used it to inscribe immoral literature, but that they have made it the target of watermelon and other fruit. The latest act was to break off the stock, or crossbar, of the anchor on the sailors' side of the monument. Though the top of the anchor is at least fifteen feet above the base of the monument, the hoodlums succeeded in climbing up on it. Commander Underhill says that the stock evidently gave way beneath the weight of a boy or man swinging on it.

The veterans, in asking for police protection, also seek to protect the women and children who are offended and insulted by hoodlums in the parks.

It is stated that Haven park has also been the scene of vandalism, and that on one night last week every seat and bench there was dug up from the ground and that many of them were made unfit for further use.
